The Rise of Oasis Grace LLC

Building Trust, Crafting Excellence

Dr. Jose Mikel Robin, hailing from a small town in India, started Oasis Grace in 2000 with a simple yet ambitious dream—transforming the construction industry. From modest beginnings, working with limited resources, he pushed through early struggles, making waves in an industry dominated by giants.

A pivotal moment came in 2017 when the company formed a key partnership with the Al Hashar Group. This collaboration, built on trust and mutual vision, not only brought a flood of new opportunities but also solidified Oasis Grace's place in the market. It wasn't just a partnership—it was a defining moment that changed everything.

Despite facing hardships, Dr. Robin's unwavering belief in a hands-on, ethical approach to leadership, combined with his relentless pursuit of excellence, propelled Oasis Grace forward.

Today, Oasis Grace stands as a testament to Dr. Robin's journey from a small-town dreamer to a force in the construction industry. With over 500 projects completed and a dedicated team of 2,000+ professionals, the company has proven that determination, integrity, and vision can defy all odds and make an impact that goes beyond just business.
